

LANDSCAPE DESIGN

From garden coaching to comprehensive landscape planning and the creation of outdoor living spaces, FORM & FUNCTION provides exceptional design services and knowledge.

Because statistically 90% of our time is spent indoors, FORM & FUNCTION perceives the landscape to ideally be an extension of interior design, and where applicable utilizes an inside-out design approach. Creating landscape designs that are responsive and integrated with all facets of your home and site requires uncommon vision. FORM & FUNCTION integrates that quality vision into each project, enhancing both nature and architecture.

P.O. Box 3804
Richmond, Virginia 23235
