

COMMERCIAL INTERIOR DESIGN

FORM & FUNCTION is committed to the creation of functional and integrated interiors based on the objectives of the client using the latest technologies. The focus is to meet specific needs while providing a practical and aesthetically pleasing environment. All projects are designed utilizing methods and materials that support and enhance the project criteria and the environment. A well planned interior is an investment that affects all aspects of business including corporate image, sales, employee retention, and daily operating expenses. Project experience includes facilities in the corporate, health care, retail, and hospitality sectors.
